Ahmedabad, Gujarat — Portfolio

Professional Summary

Dynamic and versatile MSc IT student with proven ability to learn fast, adapt across technologies, and build real-world solutions — from Android apps for government agencies to full-stack Django platforms. Certified in AWS Cloud with a strong foundation in Java, Python, and modern web frameworks. Known for turning ideas into working code under pressure — whether it's a solo sprint or team hackathon. Ready to bring both brains and hustle to any tech stack thrown at me.

Technical Skills

Programming Languages

- Java, Python, R, C, C++, PHP, JavaScript

Web & Mobile Development

- HTML, CSS, Bootstrap, Flutter (Cross-platform UI), React (basic)

Frameworks & Libraries

- Django (REST APIs, Admin Panel), Spring Boot (Intro level), Android SDK (Native apps)

Machine Learning / Data Science

- R Programming (data analysis, visualization), Python (ML basics, Scikit-learn)

Databases & Cloud

- MySQL, Firebase, SQLite, Azure API (Sentiment Analysis), AWS (Cloud Practitioner certified)

Tools & Workflow

- Git, GitHub, Postman, VS Code, Android Studio, XAMPP

Projects

Smart Inventory Management Platform – SIH 2024 Finalist

Problem Statement by Madhya Pradesh Police

Java (Android), Django (Admin Panel), SQLite, MySQL

- Selected as Finalist in Smart India Hackathon 2024 (Software Edition) for solving a real-world problem from the Madhya Pradesh Police.
- Developed a mobile app for on-field inventory tracking and a Django-based central admin panel for higher authorities.
- Features include barcode scanning, offline data sync, real-time tracking, and role-based access.
- Built with security, usability, and operational efficiency in mind.

SpareHub – B2B Auto Parts Marketplace

Flutter, Django, MySQL

- Led a 4-member team to build a full-stack B2B marketplace for auto part manufacturers and retailers as a final year capstone project.
- Developed cross-platform mobile frontend in Flutter with secure authentication and responsive UI.
- Built Django backend with role-based access, product listing, and order management system.
- Integrated MySQL database, REST APIs, and admin dashboard for centralized control.
- Focused on solving real-world supply chain issues in the automobile spare parts industry.

Sentiment-Based Product Rating System

Java, Azure Cognitive Services, NLP

- Android-based system that predicts product ratings using sentiment analysis on customer reviews.
- Integrated Azure Sentiment API and visualized results in mobile UI to enhance e-commerce insights.

Fingerprint Door Lock System

Arduino UNO, C, Adafruit Fingerprint Sensor

- Built a biometric security system using Arduino UNO and Adafruit library.
- Features include fingerprint enrollment, matching, and servo-controlled locking mechanism.
- Demonstrated real-world application of embedded systems in access control.

Internships

Android Developer Intern — CognoRise InfoTech (Remote)

Jan 2024 – Mar 2024

- Designed UI screens in Android Studio and integrated Firebase Auth.
- Worked in Agile sprints and collaborated using Git.

Education

MSc IT — GLS University, Ahmedabad

2024 – 2026 (Pursuing)

BSc IT — GLS University, Ahmedabad

2021 – 2024 CGPA: 8.8

Certifications

AWS Certified Cloud Practitioner – Amazon (2024)

Achievements

- Final Year Project selected in Top 5 at GLS Showcase 2024
- Winner – College Hackathon 2023

Languages

English, Hindi, Gujarati
